

STI brings much of the power and efficiency of our popular Win ACE Property and Evidence Software and scaled it for the small to mid-sized Evidence room. Easily implement a bar code system with Ace Express to streamline your operation. Produce a unalterable detailed chain of custody report with a single click of the mouse. Gain control of your property and easily print vault statistics and audit reports. ACE Express is there to assist you in organizing, finding, moving, releasing, destroying and performing complete inventories as required by CALEA and other national accreditations.

Property and Evidence System

Investigator Module

The ACE Express Investigator screen is home to an impressive array of features. Investigator is the jump point for Property and evidence actions that occur within ACE Express.

Quickly find:

- ★ Where items are stored
- ★ Detailed descriptions
- ★ NCIC codes
- ★ Case Information
- ★ Status of individual items
 - Hold
 - Transferred (and to whom or where)
 - Releasable
 - Released
 - Disposable
 - Disposed of
 - Closed
- ★ People associated with case
 - Claimants
 - Prisoners
 - Finders
- ★ Officers associated with case
 - Submitting
 - Responsible

Base of Operations

The popular Investigator in ACE Express becomes your 'base of operations for the software system. New submissions begin here as well as transactions, edits, reprints and the automated Chain of Custody.

Automated Chain of Custody

- Item Details
- All Property Transactions
- All People, Officers, Agencies
- Record Changes and by Who
- Status of Property at all Times
- Every Step Taken
- Each Location
- Submission Information
- Biographic, Court Ready Chain of Custody Report

Important Features

- Bar Coding** ACE Express utilizes bar codes for improved inventories, tracking and management. Bar codes exist for Items, Packages, Locations, Officers, Involved Persons and Reports.
- Fast, Accurate Inventories** The reporting power of ACE Express combined with a properly bar coded Property Room makes audits a breeze. *You may actually look forward to performing an inventory!*
- Multiple Property Types** As property is submitted it will be classified as one of the following: Evidence, Found Property, Estate, Safekeeping, Major Crime, Pawn.
- Transactions and Property Movement** All transactions involving Property and Evidence as well as any and all Movement of Property and Evidence are tracked and actively monitored by ACE Express. An easy step-by-step interface walks the user through each and every action. The result is a Chain of Custody record that is second to none!
- Intelligent Monitoring** This smart safeguard prevents mistakes in the handling of Evidence.
- Instant Access** Case and submission look ups are streamlined for speedy results. Easily find the information that you are looking for with just a few key-strokes.

DONE!

Listen to one of our customers

"The speed and accuracy of the hand held laser scanner, paired with the quality of the resultant report, has significantly improved our ability to meet, and even exceed the accreditation standards for percent of items inventoried within a given time frame. As a matter of fact, as we enter into the last quarter of the fiscal year we are 700% to plan on our inventory goal."

*Ed Gaertner, Evidence Vault Director
Las Vegas Metro Police Department
Las Vegas, Nevada*
